## concept Signature

**NEW**

### Description:

In 2009, the launch of our concept was a sensation. As an entry-level package with a specially developed tonearm and cartridge, it created a revolutionary sound package with an unbeatable price, design, and performance ratio, and has gained worldwide recognition with over 20,000 units sold.

After more than 10 years of consistency, the concept is getting an update and is now becoming the concept Signature. Consistent research and development of our products have resulted in a new control technology with integrated self-calibration, new adjustment options, and an improved motor suspension („IMS“). Even the shape of the pulley has been optimized for even less wear and more grip.

Like its predecessor, the concept Signature will be available in four chassis colors: silver, black, wood, and darkwood.

Silver chassis

Wood chassis

Black chassis

Dark wood chassis

Art. No.	Version		Retail price
TT068/S	Silver chassis		1.381,58 €
TT068/B	Black chassis		1.381,58 €
TT068/WD	Wood chassis		1.644,74 €
TT068/ WD-DARK	Dark wood chassis		1.644,74 €

Prices only for turntable without tonearm and cartridge.

**Combination are ONLY with following tonearms and cartridges possible:**

Cartridges: concept mc, concept mc Signature, Talisman V2 Gold + All MM cartridges  
Tonearms: concept, Verify, Clarify Satisfy Kardan, Profiler and Tracer

### Preamplifier: nano phono V2 / nano phono V2 headphone

#### Description:

Surface-mount technology is used in conjunction with precision electronic components, such as BURR-BROWN integrated circuits, and extremely short signal paths leading to a pure, hum and noise-free music reproduction. Also available with headphone output!

Art. No.	Version		Retail price
EL028	Silver		450 €
EL028H	Silver / Headphone output		490 €
EL028/B	Black		450 €
EL028H/B	Black / Headphone output		490 €

### smart phono V2 / smart phono V2 headphone

#### Description:

Improved low-noise operational amplifier and optimized circuit. Blue illuminated volume control. Easy loading adjustment on the bottom of the chassis. A smart chassis, machined from a solid block of Aluminium. Also available with headphone output!

Art. No.	Version		Retail price
EL027	Silver		750 €
EL027H	Silver/ Headphone output		800 €
EL027/B	Black		750 €
EL027H/B	Black / Headphone output		800 €

### Power supply: smart power 12V

#### Description:

The smart power 12V is a battery-based DC power supply upgrade designed for Clearaudio's concept and Performance DC turntables. Like the smart power 24V, it provides clean power that is independent of the variability and inherent noise of the mains supply. With a minimal output impedance, it delivers a steady, stable voltage, allowing your concept or Performance DC turntable to maintain perfect speed stability. Available in silver and black aluminium.

Art. No.	Version		Retail price
EL035/B/S	Black with silver chassis		850 €
EL035/B/B	Black with black chassis		850 €

## Power supply: Professional power 12V

### Description:

The Professional Power is a high quality transformer-based and stabilized power supply for either 12 Volt or 24 Volt DC. It is designed to fill the gap between the standard power supply that comes with our turntables and our state-of-the-art, auto-charging smart power battery supply. The unit's construction features professional-grade electronic components and a resonance-optimized transformer to ensure that no mechanical interference will be transferred through the housing. Available in silver and black aluminium.

Art. No.	Version		Retail price
EL039/B/110	Black 110V Version		590 €
EL039/B/230	Black 230V Version		590 €

## Master Innovation

### Description:

Dynamically balanced main platter is a sandwich construction of 70mm (2 ¾ inch) of high-density polymer upon a 15 mm (4/5 inch) precision turned stainless steel subplatter. This floats in free space within the resonance-reducing chassis structure in a Clearaudio patented Ceramic Magnetic Bearing (CMB). Below the CMB is a Clearaudio no-contact drive system derived from the flagship Statement turntable. To allow complete flexibility the Master Innovation will accommodate up to three tonearms (Turntable without tonearm and cartridge).

## VTA-Lifter - VTA -Adjustment

### Description:

Precise VTA-adjustment for Clearaudio radial tonearms.

Allows VTA adjustments during play.

Requires appropriate VTA-Lifter armboard.

*Please always specify your turntable and tonearm model when placing order.*

Art. No.	Version	Retail price
AC093/S	Aluminium silver	690 €
AC093/B	Aluminium black	690 €

## Unity

**NEW**

### Description:

As the name suggests, the new clearaudio tonearm combines the proven single-point bearing with a newly developed magnet stabilization design. Thanks to this enhancement of the single-point bearing design, new performance standards are set for vinyl playback. All tonearm adjustments are now possible at the micron level, ensuring the most accurate alignment and perfect tracking for high-end cartridge systems.

The continuous height adjustment allows for convenient setup even during playback. This state-of-the-art tonearm will be available in black and silver colors, with a 10 inch Monocouque carbon tonearm tube, making it the perfect complement for all clearaudio products as well as many other manufacturers.

**Super Sixstream (1.1m) terminated with RCA.**

## Goldfinger Statement V2.1

### Description:

The initial Goldfinger Statement marked a real revolution in the sound of Clearaudio's high-quality moving coil cartridges. We are proud to present the redesigned Goldfinger Statement V2.1 cartridge, which offers significant technological advances for an impressive listening experience.

By integrating stronger magnets and a new selection process, the Goldfinger Statement V2.1 sets new standards in sound quality. Redesigning the needle carrier with an optimized angle helps improve tracking accuracy, which has a positive impact on the overall performance of the cartridge.

Art. No.	Version		Retail price
MC025/V2.1	14 carat Gold-body		15.000 €

## Diamond Jubilee MC

**Coming soon**

### Description:

Stagnation is regression, which is why our team is always searching for new materials and techniques. With the Diamond Jubilee MC, we have succeeded in combining one of the hardest materials in the world with the finest selection of other components such as magnets and coils. In addition, a new needle construction design has been added to set a new standard.

## smart power 12V

### Description:

The smart power 12V is a battery-based DC power supply upgrade designed for Clearaudio's concept and Performance DC turntables. Like the smart power 24V, it provides clean power that is independent of the variability and inherent noise of the mains supply. With a minimal output impedance, it delivers a steady, stable voltage, allowing your concept or Performance DC turntable to maintain perfect speed stability. Available in silver and black aluminium.

Art. No.	Version		Retail price
EL035/B/S	Black with silver chassis		850 €
EL035/B/B	Black with black chassis		850 €

## smart power 24V for Ovation and Innovation turntables

### Description:

The smart power 24V is a battery-based DC power supply upgrade, designed to unleash more of the considerable potential of Clearaudio's high-performance Ovation, Innovation and Statement turntables. It partners intelligent circuit technology with long-lasting NiMH (nickel-metal hydride) rechargeable batteries to deliver 24V of pure, clean, fluctuation-free power. Available in silver and black aluminium.

Art. No.	Version		Retail price
EL034/B	Black		3.100 €
EL034/S	Silver		3.100 €

## smart power 24V only for Statement turntable

# Electronic Equipments / Power Generators / Phono - preamplifier

## Professional Power

### Description:

The Professional Power is a high quality transformer-based and stabilized power supply for either 12 Volt or 24 Volt DC. It is designed to fill the gap between the standard power supply that comes with our turntables and our state-of-the-art, auto-charging smart power battery supply. The unit's construction features professional-grade electronic components and a resonance-optimized transformer to ensure that no mechanical interference will be transferred through the housing. Available in silver and black aluminium.

## Terra - Groundbox

Coming soon

### Description:

Every device in the household has the potential to introduce interference in the high-frequency range, which can be a potential disruptor for clean music enjoyment. However, often the fault lies within the hi-fi chain itself, which can generate unwanted humming. This is usually due to a missing or incorrect grounding. The new grounding system „Terra“ by Clearaudio is our solution to consolidate all necessary groundings at one point and leave possible ground loops in the past.

The star-shaped endpoint prevents any ground loops, and the sand-filled casing additionally protects against vibrations and interference. Through a special grounding plug, the device is grounded via the power outlet but is not directly connected to the electricity.

On the back of the „Terra“ grounding device, there are three connections for direct grounding (grounded) and three connections with potential difference (ground lifted). Additionally, six grounding cables are included in the delivery.

Small device, big impact - with its 91 millimeter diameter, the black or silver anodized housing effortlessly complements the aesthetics of any system.

Art. No.	Version		Retail price
EL040/B	Black		990 €
EL040/S	Silver		990 €

## Power terminal

Coming soon

### Description:

High-quality power strips are often neglected in hi-fi and home theater systems and electromagnetic and high-frequency disturbances can affect the quality of playback from the very beginning.

Clearaudio offers an all-in-one solution with the "power terminal". The power strip offers a total of seven slots (1x 50W for turntable motors, 2x 800W for power amplifiers, 2x 200W for analog devices, 2x200W for digital devices), which are also individually grounded in a star shape.

The "power terminal" can be switched on and off via a central illuminated switch. The connection to the power grid is made via a shielded power cable. Thanks to a DC blocker, phase control, surge and lightning protection, your hi-fi system is safely and cleanly supplied with power.

The power strip is offered in black or silver anodized colors and can be mounted either vertically or horizontally (on the wall or the stand of your system).

### smart double matrix

**Coming soon**

#### Description:

Great performance, compactly implemented. The smart double matrix cleans your most valuable treasures on both sides in just one wash cycle. Inspired by the basic idea of the double matrix professional SONIC, the washing unit enables the cleaning of all record sizes, as the application surface can be adjusted by a controller in the washing unit. Also included in the delivery is a robust clamp with label protection to protect the labels of your records from damage or moisture during cleaning. The application of the cleaning fluid is done at the push of a button, and the duration and intensity of the cleaning are determined by the user themselves using the intuitive buttons. Visually, the new washing machine impresses with its elegance made of black, satin-finished acrylic.

A quite suction turbine inside the simple housing powerfully cleans the record. The new washing machine also contributes to resource efficiency: the production of the storage and collection containers takes place entirely in our own production facilities. For the first time in clearaudio's history, 3D-printed components are incorporated into series production.

With the new smart double matrix, clearaudio deliberately renounced expensive cleaning programs, level indicators and vibration modules during development. Thus, the latest model of the successful clearaudio Matrix Generation aims to make quick and double-sided cleaning affordable for everyone.
